

Clément BARRIÈRE

Software Engineering & AI Student

Artificial life - NLP - machine learning - modeling - information systems - international
Seeking a 36 month apprenticeship contract starting September 2026

(+33) 7 71 82 35 60 · clementbarriere64@gmail.com · clembarr.dev · linkedin.com/in/clement-barriere

PROFESSIONAL EXPERIENCE

Software Engineer • Apprenticeship - CGI, Bordeaux, France Sept. 2025 - Sept. 2026

- R&D on Grand Angle, ERP deployed across 300 French local government bodies. Designed functional evolutions for financial flow management and PES exchanges (public accounting chain). AGILE method and strict processes.

Artificial Life Researcher • Internship - ALIFE-CORE, Nagoya University, Japan Apr. 2025 - Jun. 2025

- LLM openedness and assessment for the use of linguistic bias as creativity engines.
- Designed novel evaluation metrics; results co-presented at **JSAI 2025**, Osaka.

Lifeguard • BNSSA - AquaCap, Grand Périgueux, France Summers 2022 & 2023

EDUCATION

M.Eng. in Computer Science & Networks (admitted) - ENSEIRB-MATMECA, Bordeaux 2026 - 2029

B.Tech. in Computer Science, Application Development - IUT de Bordeaux Gradignan 2023 - 2026

French Baccalauréat — Maths & CS, advanced maths track - Lycée Jay de Beaufort, Périgueux 2023

PROJECTS (clembarr.dev)

VeridisQuo - Deepfake Detection 2025

- Hybrid model combining spatial (CNN) and frequency (FFT + DCT) analysis, with face detection, result aggregation and classification, and real time visualization.

Python PyTorch YOLO OpenCV Open Source

Real-time CNN Object Classifier 2026

- Convolutional network for object classification and regression in space. Comparative benchmark vs. YOLO.

Python PyTorch CNN Computer Vision Reinforcement Learning

MCP Server Deployment 2026

- Built and deployed to production an MCP server for LLM assisted knowledge base management.

Rust Terraform Scaleway Applied AI

SKILLS & INTERESTS

Languages	Python, Rust, Java, C/C++, PL/SQL, TypeScript, React, Tailwind CSS, Angular, Bash
AI/ML & Data	PyTorch, NumPy, Pandas, Scikit-learn, Matplotlib, Transformers, UMAP, Prompting
Tools & DevOps	Git, Docker, CI/CD, Jira, Figma, Scrum, GitHub, GitLab
Domains	AI, Artificial Life, Modeling, Machine Learning, Software, Research, Cognitive Science, Data, NLP, LLM
Languages	French (native), English (C1), Spanish (B1), Japanese (basics)
Interests	Swimming, Powerlifting, Philosophy, Nature, Scientific Watch
